EDUCATION

B.S. IN INFORMATION SYSTEMS
SAINT CLOUD STATE UNIVERSITY   DECEMBER 2021

Work Experience

DevOps Engineer
Midland Credit Management, Saint Cloud, MN   JULY 2022-PRESENT
- Provision end-to-end serverless architectures on AWS using Terraform
- Import existing infrastructure to be managed by Terraform
- Use Ansible for purposes of auditing, diagnostics, and server management (On-Prem and Cloud)
- Create CI/CD pipelines to automate code testing, deployment, and infrastructure management (Azure DevOps Pipelines)
- Reduce deployment of entire infrastructure stacks to < 10 minutes by combining Terraform + CI/CD

Desktop Support Technician
Midland Credit Management, Saint Cloud, MN   FEB 2022-PRESENT
- Provide level support 2 to 150+ users to ensure business productivity.
- Install and upgrade operating systems and computer software for stability, performance, and compatibility.
- Identify areas for streamlining processes, document, plan, and implement observations.

Advanced Repair Agent/Consultation Agent
Geek Squad, Saint Cloud, MN   JULY 2018-FEB 2022
- Assist clients to upgrade computer hardware, install computer software, and upgrade computer systems for compatibility and security.
- Effectively present solutions to clients in a transparent, concise, and friendly manner to maintain a department NPS of 90%.
